## MAIN STREET REHABILITATION PROJECT UPDATE

The project involves constructing pedestrian ramps, sidewalks, pavement repair, pavement grinding, pavement overlay, and new pavement markings on Main Street between Highway 65 and Spenceville Road.

Work will continue on the Main Street Rehabilitation Project *as weather conditions allow*. “No-Parking” signs will be posted at least 24-hours in advance for the specific days when parking restrictions are needed. The following is an approximate schedule of the remaining work to be performed:

**December 10th through December 17<sup>th</sup> – Complete Concrete Work:** Any remaining curb, gutter, sidewalk and pedestrian ramp work will be completed during the day between 7AM to 5PM as weather allows. Only minor traffic delays are anticipated as well as intermittent closures of driveways, street parking and sidewalks. Direct or indirect access to businesses and residents will be maintained at all times.

**December 17<sup>th</sup> through December 31<sup>st</sup> – Grind and Pave:** Pavement repairs (patchwork) will be made in the street at various locations. Pavement grinding along the edges and across the whole street width will also be performed leaving the street surface rough. This work will require single lane traffic control (flaggers & one lane for alternating direction of travel) and no on-street parking will be allowed. The work is noisy and dusty and will be performed during the day between 7AM to 5PM Monday through Friday.

Paving operations will be conducted during the day between 7AM and 5PM Monday through Friday. Single lane traffic control will be required and no on-street parking will be allowed. Closures of driveways and intersecting streets will be required for up to an hour at a time, however direct or indirect access to businesses will be maintained at all times. Pavement markings will be placed shortly after paving is complete.

**This schedule is subject to change.** Please check the City’s website for any schedule changes or updates at <http://www.wheatland.ca.gov/>

Every effort will be made to provide the best access possible to businesses and residences. The City and Teichert Construction appreciate your patience during this much needed rehabilitation of Main Street. If you have any questions or concerns about this project please call the City at 530-633-2761.
